

BLADEx'S FIRST QUARTER NET INCOME INCREASES 98% Y-O-Y TO \$32.2 MILLION, OR \$0.86 PER SHARE; ROE RISES TO 16.6%

PANAMA CITY, April 18, 2012 – Banco Latinoamericano de Comercio Exterior, S.A. (NYSE: BLX, “Bladex”, or “the Bank”) announced today results for the first quarter ended March 31, 2012.

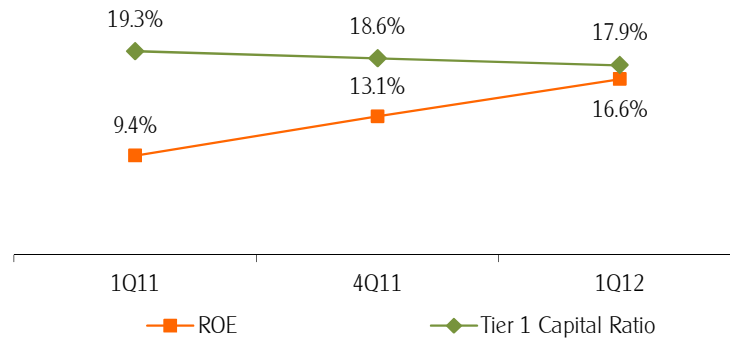

First quarter 2012 Business Highlights

- Bladex’s first quarter 2012 Net Income⁽¹⁾ totaled \$32.2 million, a \$15.9 million, or 98%, improvement from first quarter 2011, driven by strong increases in Net Income within the Commercial (+\$15.3 million, +147%) and Treasury Divisions (+\$2.6 million, +108%), while the Asset Management Unit contributed \$1.5 million to the Bank’s quarterly result. The \$7.4 million, or 30%, increase in Net Income compared to fourth quarter 2011 was mainly the result of improved performances in the Commercial (+\$8.0 million, +45%), and Treasury Divisions (+\$1.7 million, +52%).

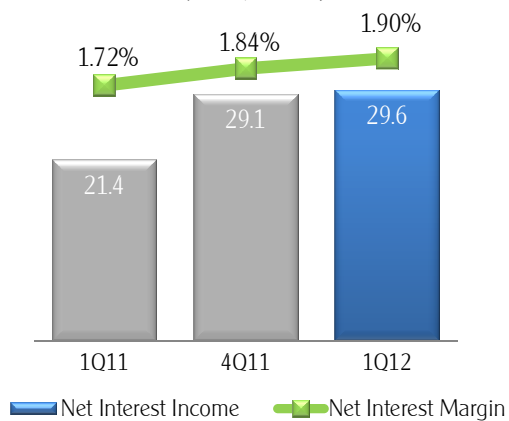

- Increased Net Income resulted in a 16.6% annualized return on the Bank’s average stockholders’ equity (“ROE”) in first quarter 2012, compared to 9.4% in first quarter 2011, and 13.1% in the previous quarter, while the Bank’s Tier 1 capital ratio remained strong at 17.9%, compared to 19.3% as of March 31, 2011, and 18.6% as of December 31, 2011. The Bank’s equity consists entirely of issued and fully paid ordinary common stock.

ROE and Tier 1 Capital Ratio Evolution

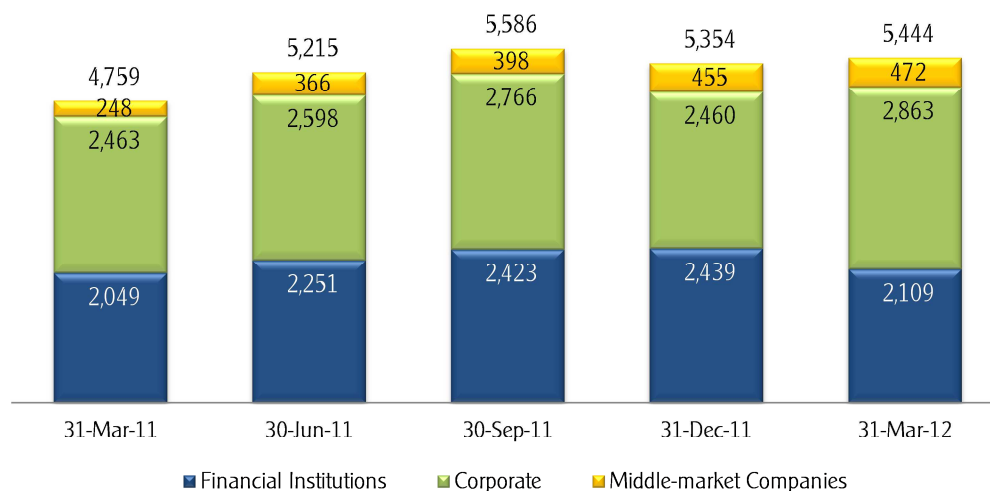

- Net interest income totaled \$29.6 million in first quarter 2012, compared to \$21.4 million in first quarter 2011, and \$29.1 million in fourth quarter 2011. The \$8.2 million, or 38%, increase from a year ago was mainly attributable to improved net interest margins (+18 bps), and higher average interest-earning asset balances (+24%).

Quarterly Net Interest Income & Margins (In US\$ million)

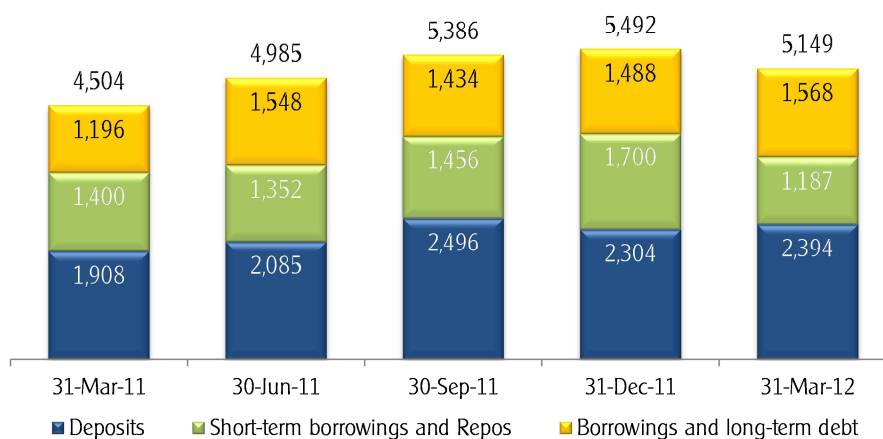

- As of March 31, 2012, the Commercial Portfolio totaled \$5.4 billion, a \$0.7 billion, or 14%, year-on-year increase, and a 2% increase from the previous quarter. The annual increase was mainly attributable to the Division's portfolio growth and diversification from the Bank's established client base of corporations (+16%), along with the continuing business expansion into the middle-market segment (+90%), which now accounts for 9% of the Commercial Portfolio. During first quarter 2012, credit disbursements amounted to \$2.5 billion, a 12% increase compared to the same period in 2011, and 11% higher than in the fourth quarter 2011.

Commercial Portfolio
(End of period balances, In US\$ million)

- As part of the Bank's strategy to diversify funding sources, and to gradually extend funding tenors, short-term borrowings and securities sold under repurchase agreements ("Repos") decreased 15% year-on-year, and 30% quarter-on-quarter to reach \$1.2 billion at the end of the first quarter 2012, while borrowings and long-term debt reached \$1.6 billion, up 31% year-on-year, and 5% increase from the previous quarter. During March 2012, the Bank successfully completed its first \$156 million bond issuance in the Mexican capital markets, and placed a \$400 million bond issuance under its global Euro Medium-Term Notes ("EMTN") Program. As of March 31, 2012, deposit balances were \$2.4 billion, a 25% year-on-year increase, and a 4% increase compared to the previous quarter.

Funding Sources
(In US\$ million)

- The non-accrual portfolio balances totaled \$24.0 million as of March 31, 2012, representing 0.5% of the loan portfolio, compared to \$29.0 million, or 0.7% of the loan portfolio, as of March 31, 2011, and \$32.0 million, or 0.6% of the loan portfolio, in the previous quarter. During the quarter, a shift in Commercial Portfolio balances towards lower risk transactions led to the need for lower generic provisions for credit losses. Credit provision levels as of these dates represented 363%, 318%, and 304% of non-accrual balances, respectively.

- The Bank's first quarter 2012 efficiency ratio improved to 31%, compared to 40% in the first quarter 2011, and 34% in the fourth quarter 2011, mainly as a result of increased operating revenues from the Commercial and Treasury Divisions.

CEO's Comments

Mr. Jaime Rivera, Bladex's Chief Executive Officer, stated the following regarding the Bank's results: "Bladex's solid first quarter results, achieved in the midst of difficult times for the global economy and the financial industry, are particularly noteworthy. As Bladex continued to project the Bank's strong market position and expanding franchise onto trade finance, a growing business in which Bladex has distinct expertise and possesses significant competitive advantages, while pursuing business in a growing Region that we know like few others, Bladex's financial results continued to strengthen.

Improvements were noticeable across a great majority of fundamentals that drive Bladex's business: interest revenue, net interest margins, securities activities, portfolio quality and asset management. Very importantly as well, the liability side of the balance sheet was strengthened, such that maturity gaps and currency positions at the Bank are now nearly immaterial, protecting the Bank's funding base in all but the direst of market conditions. Only commission income failed to meet expectations. However, the Bank is working on several transactions in the pipeline that it believes will close the gap in coming quarters.

The combined effects of these fundamentals resulted in a \$32.2 million profit in the first quarter. The implied ROE of 16.6% demonstrated the ability of Bladex's business model to deliver high levels of profitability, while maintaining strong levels of capitalization and liquidity.

Bladex knows its business extremely well, measures and manages risks effectively, maintains a steady hand during market disruptions, runs a lean structure, and executes in a disciplined manner to a very high level of excellence. During the remainder of 2012, Bladex will continue to operate on these principles, which have allowed the Bank to increase Net Income in the core business by nearly 70% in two years.

Given global uncertainties in the market, Bladex understands that the road forward will not be easy, smooth, nor steady, something that the Bank actually views as an advantage, as this environment drives less committed competitors away. Nevertheless, Bladex remains confident that by continuing to provide a larger array of trade finance services to an expanding client base across an increasing number of markets, the Bank will continue to strengthen financial results, while fulfilling its mission as a key element of Latin America's trade structure and creating value for shareholders."
